

We are looking for you to support us in delivering our quality product to our customers and work in our workshop in Oslo!

Mechanic

HiSERV has been improving the Ground Support Equipment (GSE) rental market since 2017 by delivering superior quality, high flexibility and fair and transparent pricing. We manage and offer our customers across Europe a new and modern fleet of 4,000 units. HiSERV Norway AS, as our Norwegian branch, is now up and running. To provide a top-quality service we are establishing a new workshop that will specialize in the maintenance and repair of GSE at Oslo airport (OSL). Our daily business is to safeguard the best possible availability of modern GSE for our customers, at OSL.

Please send your application, your documents and your salary expectations to:

Rasmus Dyre
Rasmus.Dyre@hiserv.aero

Moritz Schmidt
Moritz.Schmidt@hiserv.aero

Your tasks

- > Maintenance and repair of GSE, including mechanical, electrical and hydraulic systems
- > Drive and check GSE on the apron and within the workshop
- > Apply applicable safety rules and regulations
- > Deliver flawless top quality results
- > Find practical solutions to improve your work, working environment and consequently the quality we deliver to our customers

Your profile

- > Intrinsic motivation and a proactive drive to bring a workshop to the next level
- > Proven practical knowledge (trained mechanic) and experience (>2 years)
- > Successfully completed add on training, specialization in GSE-typical - or similar - technologies or systems
- > Knowledge on related rules and regulations
- > Drivers License

We offer

- > A non-standard and interesting working environment
- > A top-quality workshop
- > Competitive salary
- > Hands-on support from our existing workshops

Does all this sound interesting and appealing to you?

We invite you to join a flexible, creative, innovative and dynamic working environment where personal responsibility and team spirit are key aspects of our value contribution to both our employees and customers. As part of a young Norwegian company you can support our mission to change the GSE market as part of a multicultural team that welcomes applications from different industries and backgrounds.
